August 8, 2002

Carl R. Stevenson
Chair, IEEE 802.18 Radio Regulatory
Technical Advisory Group
4991 Shimerville Road
Emmaus, PA 18049

Dear Mr. Stevenson: *Cal*

On behalf of the Commission and the Spectrum Policy Task Force I would like to thank you for your participation in our August 1, 2002 workshop on Unlicensed Spectrum and Experimental Licenses. As the Commission and its staff begins this fundamental review of spectrum management to consider possible policy improvements in this vital area, it needs continued contact with outside experts such as yourself who can give us valued outside viewpoints. Only through this candid interaction with experts such as yourself can we hear others' perspectives on policy dilemmas, their suggested approaches for addressing them, and feedback on alternatives we might be considering.

The FCC staff valued your comments and those of the other members of the panel during the workshop. We look forward to continued dialog with you and others as we continue our study of possible new strategies for US spectrum management policy. We hope that you can continue your involvement in this process by sending us additional input when you have any further new ideas about our task.

Sincerely,

Paul Kolodzy, Ph. D.
Director
Spectrum Policy Task Force

Cal-

*Thanks for your key insights
throughout all the workshops.*
